(p) the power of the Superintendent to require the Contractor to provide a Construction Program includes a power to require the provision of an updated Construction Program whenever the Superintendent requires after a change in the Date for Practical Completion or any circumstances affecting the progress of Work under the Contract;

(q) the Contractor must provide a Construction Program and any updated Construction Program at its own cost and expense; and

(r) the power of the Superintendent to direct at what time the various stages or portions of Work under the Contract will be carried out includes a power to accelerate the progress of Work under the Contract and to bring forward the Date for Practical Completion by a reasonable period having regard to the Superintendent's direction.

The Contractor acknowledges that, notwithstanding any provision to the contrary in the Contract:

(s) the Contract Sum includes an amount equal to 5% of the Contract Sum that represents a milestone payment for the provision of each monthly revised Construction Program in accordance with Clause 33.2 up to the Date of Practical Completion;

(t) in respect of each Payment Claim up to the Date of Practical Completion, an amount (being on account of the milestone payment) equal to 5% of the value of Work under the Contract done to the relevant date set out in Annexure Part A in the Contract Header (less any amounts paid in respect of any previous Payment Claim on account of the milestone payment) is not payable, and the Contractor will not be entitled to claim that amount in the relevant Payment Claim, unless the Contractor has provided the monthly revised Construction Program in accordance with Clause 33.2 (which must not be more than seven days old at the date of the Payment Claim) in the month in which the relevant Payment Claim was made and before the relevant Payment Claim is made;

(u) if a Construction Program is received after the Payment Claim is received, the relevant amount set out in subclause (t) is only entitled to be claimed in next Payment Claim; and

(v) any amounts not payable pursuant to subclause (t) will be entitled to be claimed in the first Payment Claim after the Date of Practical Completion being achieved.'

i. Insert '*other contractor'* after the word '*Consultant*' in clause 34.1(a)(i).

ii. Insert '*a Consultant*' after the word '*Contractor*,' in clause 34.1(a)(ii).

iii. In clause 34.1(a)(ii), replace '*either*' with '*any of them'*.

b. Amend clause 34.3 by inserting the following phrase '*as soon as reasonably practicable*' after the first reference to '*recommence work'*.

30. Amend clause 35 as follows:

a. In clause 35.3, after the phrase '*liquidated damages*,' insert '*delay costs*'.

b. Replace clause 35.5 with the following:

'When it becomes evident to the Contractor that anything, including an act or omission of the Principal, the Superintendent or the Principal's employees, consultants, other contractors or agents, may delay the Work under the Contract, the Contractor must promptly notify the Superintendent in writing with details of the possible delay and the cause.

When it becomes evident to the Principal that anything which the Principal is obliged to do or provide under the Contract may be delayed, the Principal must promptly give notice to the Superintendent who must promptly notify the Contractor in writing of the extent of the likely delay.

If the Contractor is or will be delayed in reaching Practical Completion by a cause described in the next paragraph and within 7 days after the delay occurs, the Contractor gives the Superintendent a written claim for an extension of time for Practical Completion setting out :

(a) the facts on which the claim is based; and

(b) the period of extension claimed,

subject to the conditions precedent and any other provision affecting the Contractor's entitlement, the Contractor will be entitled to an extension of time for Practical Completion.

The causes are:

(c) any of the following occurring on or before the Date for Practical Completion and which are beyond the reasonable control of the Contractor;

to continue working whilst the inclement weather conditions prevail; and

(B) which differ from the conditions stated in the Contract (including the conditions of approvals imposed by the regulatory authorities or, in the absence of such a statement covering all weather conditions, inclement weather conditions which differ materially and substantially from those conditions which could have been anticipated by a prudent, experienced and competent contractor; and

(d) any of the following other causes whether occurring before, on or after the Date for Practical Completion:

(i) delay or disruption caused by:

(A) the Principal;

(B) the Superintendent;

(C) the Principal's employees, consultant, other contractor or agents;

(ii) a Latent Condition;

(iii) a variation;

(iv) changes in the law meeting the requirements in clause 14.2 or 14.3;

(v) a direction by a municipal, public or statutory authority but not where the direction arose from the failure of the Contractor to comply with a Legislative Requirement;

(vi) delay by a municipal, public or statutory authority not caused by the Contractor;

Where more than one event causes overlapping delays and the cause of at least one of those events, but not all of them, is not a cause referred to in the preceding paragraph, then to the extent that the delays are overlapping, the Contractor will not be entitled to an extension of time for Practical Completion.

In determining whether the Contractor is or will be delayed in reaching Practical Completion regard must not be had to:

(e) whether the Contractor can reach Practical Completion by the Date for Practical Completion without an extension of time; or

(f) whether the Contractor can, by committing extra resources or incurring extra expenditure, make up the time lost.

It is a condition precedent to the Contractor's entitlement to claim an extension of time that:

(g) the Contractor complies with the notice requirements set out in this clause;

(h) the cause of delay is not within the reasonable control of the Contractor or any subcontractor;

(i) the delay was not caused or contributed to by the Contractor failing to comply with its obligations under the Contract;

(j) the cause of delay affects the Contractor's critical path for completion of the Works; and

(k) the cause of delay or the delay is not specified in the Contract as being the risk of the Contractor or for which the Contractor is not entitled to any claim.

If the Contractor is entitled to an extension of time for Practical Completion the Superintendent must, within 28 days of receipt of the notice of the number of days extension claimed, grant a reasonable extension of time. If within the 28 days the Superintendent does not grant the full extension of time claimed, the Superintendent must before the expiration of the 28 days give the Contractor notice in writing of the reason.

In determining a reasonable extension of time for an event causing delay, the Superintendent must have regard to whether the Contractor has taken all reasonable steps to preclude the occurrence of the cause and minimise the consequences of the delay.

A delay by the Principal or the failure of the Superintendent to grant a reasonable extension of time or to grant an extension of time within 28 days, will not cause the Date for Practical Completion to be set at large but nothing in this paragraph will prejudice any right of the Contractor to damages.'

a. Amend clause 35.6 as follows:

i. After the first paragraph, insert the following:

'The Superintendent when issuing a certificate pursuant to Clause 42.1, and the Principal when exercising any set-off rights, may include a provisional assessment of the amount then provisionally due by way of liquidated damages.'

ii. After the last paragraph, insert the following:

'If this Clause 35.6 (or any part thereof) is found for any reason to be void, invalid or otherwise inoperative so as to disentitle the Principal from claiming liquidated damages, the Principal is entitled to claim against the Contractor damages at law for the Contractor's failure to achieve Practical Completion by the Date for Practical Completion.'

31. <u>Replace clause 36 with the following:</u>

'For every day the subject of an extension of time for a Compensable Cause for which the Contractor gives the Superintendent a claim for delay costs pursuant to Clause 46, amounts certified by the Superintendent under Clause 46.4 will be due and payable to the Contractor.

The Contractor will not be entitled to claim any delay costs which:

(a) could reasonably have been avoided by the Contractor;

(b) exceed the Delay Rates; or

(c) includes any amounts, or costs suffered or incurred by the Contractor, arising out of or in connection with any disruption or loss of productivity.

Except to the extent expressly set out in this Clause 36, the Contractor will not be entitled to claim any costs, expenses, damages or other amounts resulting from any delay or disruption arising from any cause (including without limitation breach by the Principal).

The Principal will not be obliged to pay any costs under this Clause 36 which have already been included in the value of a variation or claim for any other payment under the Contract; or including, but not limited to, costs of suspension in accordance with Clause 34.4 and the valuation of any variations.'

32. Amend clause 37 as follows:

a. In the fourth paragraph, replace '*shall be a debt due from the Contractor'* with '*will be a debt due from the Contractor to the Principal. Until the cost of the work of rectification has been incurred by the Principal, the Principal may deduct the estimated cost of such work from payments to the Contractor as a debt due and payable.'*

33. Amend clause 40 as follows:

a. Amend clause 40.1 by inserting the following at the end of the clause:

'Except where the Contractor has provided an offer under Clause 40.2, within a reasonable time the Contractor must provide to the Superintendent a price, ascertained in accordance with Clause 40.5 and supported with measurements, rates and evidence of the work and cost (including where applicable subcontractors' and suppliers' measurements, rates and evidence of the work and cost) for the work the subject of a variation issued under this Clause 40.1. The Superintendent and Contractor must endeavour to agree upon a price for the variation and any written agreement reached will be binding upon the parties. If the Superintendent and Contractor fail to agree in writing upon a price for the variation or if the Contractor fails to provide a price to the Superintendent within a reasonable time, the variation must be valued by the Superintendent under Clause 40.5.

Notwithstanding anything to the contrary in the Contract:

(f) the Principal will only be liable to the Contractor for an amount calculated under Clause 40.5 or for an extension of time for Practical Completion. for a variation where either:

(i) the direction to perform the variation given by the Superintendent is in writing and expressly states that the direction constitutes a variation and identifies the work the subject of the direction; or

(ii) before performing the variation and in any event within seven days of receiving the direction to perform the variation, the Contractor has given the Superintendent a notice in writing which identifies:

(A) the date the direction was given;

(B) whether the direction was given orally or in writing;

(C) the substance of the direction (if it was in writing a copy should be attached);

(D) the approximate cost of the variation including a detailed breakdown calculated in accordance with Clause 40.5; and

(E) whether a claim will be made for an extension of time as a consequence of the variation and if so, an estimate of the period; and

(g) except where the Contractor is entitled to make a claim under this Clause, the Contractor will have no entitlement to:

(i) any adjustment to the Contract Sum or valuation under Clause 40.5;

(ii) an extension of time;

(iii) a declaration to the effect that time is at large; or

(iv) recover any loss, cost, damage or expense of any kind arising:

(A) under the Contract;

(B) out of or in connection with the Work under the Contract or the performance of the Work under the Contract (including on a quantum merit).'

b. Amend clause 40.2 as follows:

i. After the first reference of '*Superintendent*', insert '*within 2 days'*.

ii. After the second reference of '*the Contractor shall*', insert '*in writing*'.

iii. Delete subclause (b) and the last paragraph of the clause and replace with:

'*(b) provide to the Superintendent a price, ascertained in accordance with Clauses 40.5 and supported with measurements, rates and evidence of cost (including where applicable subcontractors' and suppliers' measurements, rates and evidence of cost) for carrying out the proposed variation.*

The Contractor's written response to Clauses 40.2 (a) and (b) will constitute the Contractor's offer under this Clause 40.2.

The Superintendent may, in writing and within a reasonable time, accept the Contractor's offer and issue a direction under Clause 40.1 to carry out the proposed variation, in which case the value of the variation and any extension of time as a result of the direction under Clause 40.1 must be in accordance with the accepted offer, which will be binding upon the parties.

The Superintendent may nevertheless issue a direction under Clause 40.1 to carry out the proposed variation, and the variation must be valued by the Superintendent under Clause 40.5.'

'Where the Contract provides that a valuation must be made under this Clause 40.5, the Principal must pay or allow the Contractor or the Contractor must pay or allow the Principal, as the case may require, an amount ascertained by the Superintendent as follows:

(a) an amount agreed between the parties;

(b) to the extent that Clause 40.5(a) does not apply and the Contract prescribes specific rates or prices to be applied in determining the value, those rates or prices must be used;

(c) to the extent that neither Clause 40.5(a) nor 40.5(b) applies, the rates or prices in a Schedule of Rates must be used to the extent that it is reasonable to use them;

(d) to the extent that neither Clause 40.5(a), 40.5(b) nor 40.5(c) applies reasonable rates or prices must be used, which must include a reasonable amount for all profit and on-site and off-site overheads (including supervision, preliminaries and attendances);

(e) to the extent that neither Clause 40.5(a), 40.5(b), 40.5(c) nor 40.5(d) applies, as Daywork valued in accordance with Clause 41; and

(f) if the valuation is of an increase or decrease in a fee or charge or is a new fee or charge under Clause 14.3, the value must be the actual increase or decrease or the actual amount of the new fee or charge without regard to overheads or profit.

The parties acknowledge that the Superintendent may request the Contractor to provide supporting evidence of the work, goods, materials or services and associated costs which the Superintendent may reasonably require prior to determining a valuation under Clauses 40.5(a) to 40.5(e) above.

For the purposes of a valuation to be made in accordance with Clause 40.5(b), 40.5(c), 40.5(d) or 40.5(e):

(g) in determining the deduction to be made for work which is taken out of the Contract, the deduction must include a reasonable amount for profit and overheads;

(h) if the valuation relates to extra costs incurred by the Contractor for delay, the costs must be assessed in accordance with the requirements of Clause 36; and

(i) if Clause 11(b) applies, the percentage referred to in Clause 11(b) must be used for valuing the Contractor's profit and attendance.

The Superintendent may, in respect of a variation directed under Clause 40.1 (other than for the Contractor's convenience), in its sole and unfettered discretion and without any obligation to do so, allow the Contractor reasonable cost of preparing measurements, rates and evidence of cost that has been incurred over and above the reasonable overhead cost.

For the purposes of this clause, amounts to be allowed for profit and on-site and off-site overheads (including supervision, preliminaries and attendances) must be calculated in accordance with, and must not exceed the respective rates for each of

For the avoidance of doubt, the Contractor may only Claim in connection with a valuation which is to be made under this Clause 40.5, subject to and in accordance with this Contract (including Clauses 40.1 and 46 if applicable), as part of a Payment Claim.'

34. Amend clause 41 as follows:

a. At the end of subclause (f), insert the following:

'The charge to apply to Daywork to cover overheads, administrative costs, site supervision, establishment costs, attendance and profit is 10 per cent or where any of the above items covered by this charge are considered by the Superintendent on examination of the amount to be reasonably included in the rates for Daywork, then a reasonable charge determined by the Superintendent.'

35. Amend clause 42 as follows:

a. Replace clause 42.1 with the following:

'The Contractor agrees that:

(a) at the times for Payment Claims stated in Annexure Part A in the Contract Header; and

(b) at the time prescribed by Clause 42.7 (which time is the only date on which a Payment Claim may be made by the Contractor after the Practical Completion Payment Claim under paragraph (a) and which Payment Claim under this paragraph (b) will cover the Contractor's entitlement to payment, if any, for all of the Work under the Contract undertaken after Practical Completion),

Payment Claims must include the value of work carried out by the Contractor in the performance of the Contract to that time together with all amounts then otherwise due to the Contractor arising out of or in connection with the Contract for any alleged breach thereof.

Within the Response Period of receipt of valid Payment Claim, the Superintendent must assess the claim and must issue to the Principal and to the Contractor a Payment Certificate stating the amount of the payment which, in the Superintendent's opinion, is to be made by the Principal to the Contractor or by the Contractor to the Principal. The Superintendent must set out in the certificate the calculations employed to arrive at the amount and, if the amount is more or less than the amount claimed by the Contractor, the reasons for the difference. The Superintendent must allow in any Payment Certificate issued pursuant to this clause 42.1 or any Final Certificate issued pursuant to clause 42.8 or a Certificate issued pursuant to clause 44.6:

(c) the value of work carried out by the Contractor in the performance of the Contract to the date of the claim;

(d) amounts otherwise due from::

(i) the Principal to the Contractor; and

(ii) the Contractor to the Principal;

(e) amounts assessed under Clause 46.4 and not duly disputed;

(f) amounts paid previously under the Contract;

(g) amounts previously deducted for retention moneys pursuant to Annexure Part A in the Contract Header; and

(h) retention moneys to be deducted pursuant to Annexure Part A in the Contract Header,

arising out of the Contract resulting in the balance due to the Contractor or the Principal, as the case may be.

If the Contractor does not make a Payment Claim in accordance with the Contract, or for any other reason and at any other time in the Superintendent's sole and unfettered discretion (and without being under any obligation to do so), the Superintendent may issue a Payment Certificate.

Subject to Clause 48F, the Principal must, within 15 Business Days after the Superintendent receives the Payment Claim, pay to the Contractor the balance of the Payment Certificate after deducting retention moneys and setting off such of the Payment Certificate as the Principal elects to set off. If that setting off produces a negative balance, the Contractor must pay that balance to the Principal within 5 Business Days of receiving written notice thereof.

Subject to the provisions of the Contract, within 15 Business Days of receipt by the Superintendent of a valid Payment Claim or Final Payment Claim, the Principal must pay to the Contractor or the Contractor must (as a debt due and payable) pay to the Principal, as the case may be, an amount not less than the amount shown in such certificate as due to the Contractor or to the Principal, as the case may be, or if no Payment Certificate has been issued, the Principal must pay the amount of the Contractor's Payment Claim.

A payment made pursuant to this Clause 42.1 will not prejudice the right of either party to dispute under Clause 47 whether the amount so paid is the amount properly due and payable and on determination (whether under Clause 47 or as otherwise agreed) of the amount so properly due and payable, the Principal or the Contractor, as the case may be, will be liable to pay the difference between the amount of such payment and the amount so properly due and payable.

Payment of moneys will not be evidence of the value of work or an admission of liability or evidence that work has been executed satisfactorily but will be a payment on account only, except as provided under Clause 42.8. Nothing in this Contract will oblige the Principal to pay for work that is not in accordance with the Contract.'

b. Replace clause 42.4 with the following:

'The Contractor will be entitled to claim, and the Principal will be obliged to pay, for any item of unfixed plant and materials (notwithstanding that the item has not been incorporated into the Works) where that item is listed in Annexure Part A in the Contract Header if the Contractor—

(a) provides the amount of additional security stated in Annexure Part A in the Contract Header separately approved by the Principal under Clause 5.3; and

(b) establishes to the satisfaction of the Superintendent that the Contractor has paid for the item, the item is properly stored, labelled the property of the Principal and is adequately protected.

Upon payment to the Contractor of the amount which includes the value of the item, and upon the release of any security, the item will be the property of the Principal free of any lien or charge.

Any additional security provided for any item of unfixed plant and materials must be released in accordance with Clause 5.8.

Except as provided in the Contract, the Contractor will not be entitled to claim, and the Principal will not be obliged to pay, for any item of unfixed plant and materials which is not incorporated in the Works.'

c. Amend clause 42.5 as follows:

i. Change all references of '*14 days*', to *'28 days*'.

ii. After the last paragraph, insert the following:

'Upon Practical Completion, the Contractor agrees that, except:

(a) in respect of any amounts claimed in any Payment Claim given under Clause 42.1 (subject to compliance with Clauses 46 and 47);

(b) in respect of any part of the Contract Sum claimed in any Payment Claim given under Clause 42.1 immediately after Practical Completion;

(c) in respect of unresolved claims the subject of a notice under Clauses 46 and 47 or any other clause of this Contract expressly permitting the Contractor to notify of a claim (subject to such notices being served no later than 10 Business Days after the date on which the Contractor receives the Certificate of Practical Completion); and

(d) in respect of the release of any unconditional undertakings in accordance with Clause 5.8,

the Contractor:

(e) has been paid all amounts due and payable by the Principal or to which the Contractor is entitled:

(i) at the Date of Practical Completion under or in connection with this Contract; or

'*At the time for the Final Payment Claim stated in Annexure Part A in the Contract Header, the Contractor must lodge with the Superintendent a final payment claim and endorse it `Final Payment Claim'. The claims status as the Final Payment Claim is subject to the Payment Claim meeting the contractual prerequisites required for a Final Payment Claim.*

In addition to claims for payment required to be included in a Payment Claim under Clause 42.1, the Contractor must include in that claim all moneys which the Contractor considers to be due from the Principal under or arising out of the Contract or any alleged breach thereof.

After the expiration of the period for lodging a Final Payment Claim, any claim which the Contractor could have made against the Principal and has not been made will be barred.'

f. Amend clause 42.8 as follows:

i. Replace reference to '*14 days'* with '*the Response Period'.*

ii. Before the first reference to '*Final Payment Claim'* insert '*valid'.*

iii. Replace *'final payment certificate endorsed 'Final Certificate''* with *'final Payment Certificate endorsed 'Final Certificate' or give the Contractor in writing the reasons for not issuing the certificate'.*

iv. Insert at the end of the first paragraph the following:

'In such Final Certificate the Superintendent must also set out such of the allowances in Clause 42.1(a) to 42.1(f) inclusive as are appropriate to such Final Certificate.'

v. Delete the last paragraph and replace with the following:

'Subject to the Principal's rights to set-off pursuant to Clause 42.8 and to have recourse to security and retention pursuant to Clause 5.5, within 28 days of the issuance of a Final Certificate which certifies a balance owing by the Principal to the Contractor, and later of:

If the moneys payable to the Contractor are insufficient to discharge the liability of the Contractor to pay such sum to the Principal, the Principal may have recourse to retention moneys (whether or not these are held by the Principal in alternative form pursuant to Clause 42.1), and if they are insufficient, to security provided under Clause 5.2 of the Contract. For the avoidance of doubt, nothing prevents the Superintendent or the Principal setting off or withholding any amount arising out of, or in connection with, a failure of the Contractor to satisfy any Claim Precondition, where such failure is also a breach of this Contract or results in any other Claim of the Principal against the Contractor.

The Contractor may only include in the Payment Claim contemplated by this Clause 45A (such claim to be assessed in accordance with the Contract, including being subject to Clause 46), any amount which is due and payable to the Contractor under the Contract in respect of Work under the Contract properly undertaken prior to or on the Termination Reference Date.

Unless instructed by the Principal to act otherwise, the Superintendent must not assess any other amounts and the Principal shall have no obligation to pay any other amounts, including additional amounts contemplated under either Clause 44 or Clause 48B, until such time as the Payment Claim contemplated by this Clause 45A has been made and assessed in a Payment Certificate by the Superintendent (or the time for making such a Payment Claim has elapsed under the Security of Payment Act).

The parties acknowledge and agree that where the Contract is terminated for any reason the Termination Reference Date will be the sole and final 'reference date' under the Security of Payment Act to survive beyond termination.

At any time following a termination, including after the submission and assessment of any Payment Claim contemplated by this Clause 45A, the Principal may request the Superintendent to issue a Payment Certificate, including to assess any amounts owing either to the Principal from the Contractor, or to the Contractor from the Principal, as the case may be.

Within 15 Business Days of receipt of such a request, the Superintendent must issue a Payment Certificate to the Principal and the Contractor. Any amount owing under the Payment Certificate must be paid by the Contractor to the Principal, or the Principal to the

The work performed under the preceding clause may give rise to the Principal wishing to issue corrective action notices. In addition to any other avenues available under the Contract:

(b) the Principal may, if urgent action is necessary to protect people or property and the Contractor fails to take such action, take such action itself. The costs the Principal incurs will be a debt due from the Contractor.

If such a direction is given, the Contractor must inform the Superintendent in writing immediately upon completion of the corrective actions.'

88. Insert a new clause 48B as follows:

Standards Australia

Standards Australia is an independent company, limited by guarantee, which prepares and publishes most of the voluntary technical and commercial standards used in Australia. These standards are developed through an open process of consultation and consensus, in which all interested parties are invited to participate. Through a Memorandum of Understanding with the Commonwealth government, Standards Australia is recognized as Australia's peak national standards body.

Australian Standards

Australian Standards are prepared by committees of experts from industry, governments, consumers and other relevant sectors. The requirements or recommendations contained in published Standards are a consensus of the views of representative interests and also take account of comments received from other sources. They reflect the latest scientific and industry experience. Australian Standards are kept under continuous review after publication and are updated regularly to take account of changing technology.

International Involvement

Standards Australia is responsible for ensuring that the Australian viewpoint is considered in the formulation of international Standards and that the latest international experience is incorporated in national Standards. This role is vital in assisting local industry to compete in international markets. Standards Australia represents Australia at both ISO (The International Organization for Standardization) and the International Electrotechnical Commission (IEC).

Electronic Standards

All Australian Standards are available in electronic editions, either downloaded individually from our Web site, or via on-line and CD ROM subscription services. For more information phone 1300 65 46 46 or visit us at
